

The In-Line Silencers, with double threaded connections, are particularly indicated for installation in blowers and vacuum generators, whether for aspiration or compression.

External body in zinc plated metal, internal noise-absorbing elements of partially closed-cell polyurethane resin.

For special applications heat treatments can be carried out on the metal parts.

FEATURES

- Bottoms and all metal supports are in zinc plated metal
- In-out connections with gas thread
- Filtering element is in noise-absorbing sponge
